*New name ... same excellent service!*

## Dr. Ingber is Santa Clarita Valley's #1 Physician Injector

*Botox* and Dermal fillers, such as Restylane, Juvederm, and Perlane, are actual medical procedures. That is why they are best performed by a physician who understands the facial skin and musculature.

Dr. Craig Ingber is a Board Certified Facial Plastic Surgeon with over 30 years of experience in injecting these facial structures.

**Dr. Ingber personally performs all injections at DermaCure.**

# DermaCure is excited to announce the arrival of the following new products:

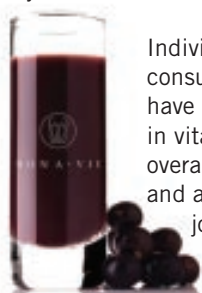

## MonaVie

Monavie features a delicious blend of the Brazilian acai berry and other body-beneficial fruits from around the world.

Developed with the philosophy of Balance-Variety-Moderation, MonaVie delivers key phyto-nutrients and antioxidants to help you maintain a healthy and active lifestyle. MonaVie Active contains the added benefits of glucosamine, which has been scientifically shown to promote healthy joint function.

Individuals who regularly consume MonaVie Active have reported an increase in vitality, better health, an overall sense of well being, and an improvement in joint health.

The key ingredient in MonaVie is the Brazilian

Acai Berry which is grown in the rich, fertile soil of the Amazon rain forest. For countless centuries, the people of the Amazon have revered this unique fruit for its health-promoting properties. Acai is rich in the following nutrients: antioxidants, phytonutrients, amino acids, vitamins and trace minerals.

**Come by the office today for a sample taste ... you will be hooked.**

## SOi Candles

SOI Candles are hand-poured using 100%, FDA approved, kosher soy oil and burn cleaner than paraffin-based candles. Available in a variety of amazing scents, our candles burn about 140 hours (about 40% longer than wax candles), are soot-free and do not emit any harmful toxins into your home. Unlike wax, soy oil burns coolly at 106° into a reflective pool of soy that always remains warm to the touch and will not burn little hands.

Another amazing benefit is that because SOI Candles are created from natural soy, the melt pool can also be used as a skin moisturizer that can be massaged into any dry or irritated areas. It can also be applied as a soothing remedy to many skin conditions such as sunburned skin, eczema, psoriasis, and poison oak.

SOI Candles are triple-fragranced with a variety of delightful aromas to match the décor and accentuate the feel of your home. Never overpowering, one SOI Candle can scent a 2500 square foot area.

***Come in today and smell our variety of new fall scents, such as Mandarin Cranberry, Pumpkin Spice, Sugar Cookie, Holiday Spirit, and Fresh Mistletoe.***

## Clarisonic® Skin Care System

Keep your skin looking young, vibrant, and healthy. Clarisonic gently clears your pores, cleansing deeply for better absorption of your skin care products.

Developed by the people who created the Sonicare® Toothbrush, the Clarisonic Skin Care System helps remove six times more makeup than soap and water alone. The bristles vibrate 300 times per second and massage your face to squeaky clean perfection.

Clarisonic made it on "Oprah's Favorite Things" list! "It's a miracle massage for your face," Oprah says.

### Benefits of Clarisonic Skin Care System:

- 6 times more makeup removal
- Leaves skin feeling and looking younger and smoother
- Cleanses so well that products absorb better
- Gently enough for twice daily use
- Helps reduce oily areas, dry skin patches and blemishes
- Helps reduce the appearance of visible pores
- Reduces the appearance of fine lines and wrinkles

# Cellulite Reduction and Body Reshaping

*I had problems with cellulite for years. I have tried multiple treatments such as endermologie, cellulite creams, massage and ultrasound with no success. The VelaShape treatment is the quickest way to get rid of cellulite successfully. I am very happy with my results!*

— M.L. Valencia, CA, DermaCure Patient

Studies show that 80% of women have cellulite, and countless others suffer from problems such as “love handles”, “saddlebags”, and even “muffin tops” as described by TV’s Rachel Ray. Cellulite has traditionally been the most difficult physical issue to treat, medically or surgically. Yet, we have all heard of crazy, ineffective treatments that promise to banish cellulite forever. Until now, none have been FDA approved. None have shown persuasive patient satisfaction statistics. Almost all have been painful and very expensive.

The wait is over. In keeping with DermaCure’s tradition of offering only the highest quality, effective medical treatments for our patients, we announce the arrival of a new cellulite treatment that has impressive, immediate results for its clients. VelaShape is the only non-surgical treatment with FDA clearance for Body Reshaping and Circumferential Reduction of the thighs. Other treatable areas include the buttocks, stomach, legs, knees, hips, and upper arms. By utilizing Infrared technology, Bi-Polar Radiofrequency, vacuum, and mechanical massage VelaShape will gradually smooth the skin’s surface with a reduction in cellulite and reshape your body. Most women experience 2 cm of circumferential reduction in the size of their thighs.

Patient satisfaction with cellulite treatment is greater than 85%. The procedure is painless and requires no downtime, with patients returning to their daily routine or back to work immediately following the session. Treatment requires four to six sessions one week apart each lasting about 30 minutes, and is effective on all skin types and skin colors.

*Welcome to Our Newest  
DermaCure Family Member*

## **Nikki Lundgren, R.N.**

Nikki is a Registered Nurse who started her career in Hematology / Oncology at LAC-USC Medical Center. After several months, she moved into the operating room, working at a surgery center in Downtown Los Angeles. The passion to expand her knowledge in the aesthetics side of the medical field directed her path into the laser industry. It didn’t take long for Nikki to jump on her newly found occupational desires. While working at a laser center in Pasadena, she became engaged. After tying the knot, she and her husband, Christian, moved to Valencia, all the while commuting and running a new household. As time elapsed, she felt the need to find employment closer to home, and joined the Derma Cure family.

Nikki is encouraged by her energetic, mischievous lab puppy, Duke, and will be married one year this August!

There are no drugs or injections required with VelaShape.

VelaShape has received a great deal of positive publicity, including features on both Dr. Phil and Rachel Ray television shows. Medical journals have sung the praises of this new procedure.

At last, a cellulite treatment that works! Reduce and smooth out your problem areas. See immediate, measurable results. DermaCure can help you come up with a treatment plan that will add a new confidence to your life!
